

Expanding our telehealth portfolio

CVS Health Virtual Care™ and CVS Health Virtual Primary Care™ For Small Group* Aetna Funding AdvantageSM

Virtual care solutions at a \$0 cost-share

Starting on January 1, 2023, all Small group Aetna Funding Advantage members on broad network plans with effective dates on or after October 1, 2022, will have access to two new virtual care solutions at \$0 cost-sharing.**

*Available for 2–50 in AZ, FL, IA, ID, Southern IL, KS, MD, MN, MO, NE, OK, TX, UT, VA, WI and WY. 10–50 in NV. 11–50 in ME. 2–100 in GA, Northern IL, LA, MA, MI, MS, NJ, OH, PA, SC, TN and WV. 5–100 in CO, CT, DE and KY. 10–100 in CA and RI. 20–100 in NC.

**If the member enrolls in a qualified high-deductible health plan, they can receive preventive services at no cost. To receive no-cost care on all covered non-preventive services, the member will first need to meet their deductible. CVS Health Virtual Primary Care and CVS Health Virtual Care are not available to joint ventures, locally based networks and indemnity plans. Age restrictions may apply. Refer to plan documents for cost-sharing and additional plan details.

Virtual care solutions at a \$0 cost-share*

1. CVS Health Virtual Care™

Provides 24/7 on-demand care. Plus mental health services such as talk therapy and medication management.

2. CVS Health Virtual Primary Care™

Creates the opportunity to build a primary care relationship, virtually. Eligible members choose a physician to help them with a wide range of medical needs and ongoing care. This includes preventive care, sick and wellness visits and chronic disease management. A dedicated Care Team, available 24/7 via secure messaging, supports the physician.

Bringing value to your clients

Both of these virtual care solutions help your clients to lower costs and improve workplace productivity. They also offer convenient, affordable care to employees — virtually.

Lower costs

- Using virtual care for on-demand needs, as opposed to urgent care or emergency room visits, can offer a better care experience at a lower cost.
- The Care Team can help to coordinate in-person care with in-network providers. They can also refer members to Aetna Care Management for ongoing triage support and health guidance.
- Pharmacists consult with the virtual Care Team on medication reviews. When doing so, they can identify lower-cost drug options, if available. This may help your employees save money.

Convenient care and workplace productivity

- An interoperable electronic health record (EHR) captures visit outcomes. This means employees can share visit data with other network providers who use interoperable EHRs, including MinuteClinic®.
- Anywhere access to care removes the need to travel. So there's less time away from work and family.
- Convenient virtual care services help improve employee well-being. And they may boost retention.

*If the member enrolls in a qualified high-deductible health plan, they can receive preventive services at no cost. To receive no-cost care on all covered non-preventive services, the member will first need to meet their deductible. CVS Health Virtual Primary Care and CVS Health Virtual Care are not available to joint ventures, locally based network and indemnity plans. Age restrictions may apply. Refer to plan documents for cost-sharing and additional plan details.
