

# ALL ACROSS COLORADO

## Members have access to Pathway EPO in every county

Health coverage is important, no matter where you live. That's why our Pathway exclusive provider organization (EPO) health plan has a large network that extends to every county in the state. Members receive choice and flexibility for greater savings with the broadest coverage. The Pathway EPO is available to both Large Group and Small Group, and all funding types.

### High-quality care with no referrals<sup>1</sup>

Members have **open access** to more than 70% of primary care doctors and specialists, and 77% of hospitals. More than 2,280 primary care doctors, 9,000 specialists and 63 acute-care hospitals are available for care across the state. Colorado's top hospitals and teaching facilities are in the network, including **Rocky Mountain Hospital for Children**.

### Coverage across the country and around the world

In-network care is available through the BlueCard® program throughout the U.S., including more than **96% of hospitals** and **95% of doctors**.<sup>2</sup> With the Blue Cross Blue Shield Global Core™ program, members have access to hospitals and doctors around the globe.

### Doctors who provide personalized care

Members have access to doctors and specialists who are committed to **personalized, coordinated care**. Members can look for the "Cooperative Care" label when searching for a primary care doctor with our Find a Doctor tool at [anthem.com](http://anthem.com).

### Tools that keep members in their best health

The Pathway EPO plan comes with a variety of online tools and resources, such as **Care & Cost Finder** and the **Sydney Health** mobile app, to help members manage their health. This can mean better well-being for the long run — and lower costs for everyone. The plan also covers preventive care at 100%.
