

Discover your options for quick care

Find out about emergency room alternatives

When you're looking for care in a hurry, you want to receive it safely and quickly. If it's not a life-threatening emergency and your doctor isn't available, you have other options.

What to do when you need care fast

Step 1: Call your primary care doctor or Anthem's 24/7 NurseLine.

Your doctor can help you decide where to receive care, whether it's a visit to the office, the emergency room (ER), or somewhere else. If your doctor isn't available, you can call the Anthem 24/7 NurseLine at the number on the back of your ID card for guidance.

Step 2: If it's not an emergency, choose one of the options below to save time and money.

Depending on your needs, the following options are more convenient than the ER, and you can use them at night and on weekends to lower your chances of long wait times:

- **LiveHealth Online** — Have a video visit in minutes with a board-certified doctor 24/7 on your mobile device or computer. No appointment is needed. Go to livehealthonline.com or download the no-cost app to register.
- **Retail health clinic** — Typically located in a major pharmacy or retail store, you can receive basic health care services from a health care professional.
- **Walk-in doctor's office** — No appointment is needed for routine care and common illnesses.
- **Urgent care center** — For conditions that need care right away, urgent care is a convenient option if you need stitches, lab tests, or X-rays.

If you're an HMO member, talk to your primary care doctor to understand your options for quick care. Your doctor can also help you find quick care centers in your plan.

When you think it's a true emergency, call 911 or go to the nearest ER.
